## PROFILE SUMMARY

Motivated Computer Applications graduate with a solid foundation in mobile and web development. Skilled in Flutter, Android (Java), PHP, ASP.NET, HTML, and CSS. Experienced in building user-friendly apps through hands-on projects like an e-commerce app and career platform. Strong in problem-solving, time management, and teamwork.

## PROJECTS

### 1. Exhibition Management System – Full-Stack Developer

**Technologies:** PHP, MySQL, HTML/CSS, JavaScript

- Developed a web platform for managing exhibitions, covering visitor registration, exhibitor details, and stall assignments. Implemented both client and server sides with an admin dashboard for efficient exhibition and attendee management.

### 2. E-Commerce Clothing App – Android Developer

**Technologies:** Java, Android SDK, Razorpay API

- Designed and developed a mobile app for clothing retail, allowing users to browse products, add items to the cart, and complete secure payments via Razorpay API. Focused on providing an intuitive and seamless shopping experience.

### 3. Tutorial Website – ASP.NET Developer

**Technologies:** ASP.NET (VB), SQL Server, HTML/CSS

- Built a tutorial platform with distinct admin and client panels. Admins can manage users and tutorials, while clients can easily explore structured tutorials.

### 4. French Language Tutor (Minor College Project) – Flutter Developer

**Technologies:** Flutter, Gemini API, Firebase

- Developed a French learning app with login/registration, chatbot functionality, section-wise lessons, quizzes, profile management, and detailed user progress analysis powered by the Gemini API.

### 5. KaziGo – Career Companion App (Major College Project) – Resume Builder & UI Developer

**Technologies:** Flutter, Firebase, Cloud Firestore

- Built a career platform with three modules: Employer, Employee, and Admin. Employers can post jobs and company insights (subject to admin approval), while employees can apply for jobs, create resumes, and manage profiles. Developed a fully functional resume builder with download capability and premium templates.
