PROFILE

Python-focused developer with a strong foundation in AI/ML concepts and hands-on experience using Python for data processing and model development. Skilled in NumPy, Pandas, and basic machine learning algorithms for data analysis and prediction tasks. Familiar with model training, evaluation, and preprocessing techniques using real-world datasets. Motivated to grow as an AI/ML Engineer, contributing to intelligent and data-driven solutions.

SKILLS SUMMARY

- **Languages :** HTML, CSS, JavaScript, Python, SQL, MERN Stack
- **Frameworks :** Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn, TensorFlow, FastAPI
- **Tools :** Git, GitHub
- **Soft Skills :** Problem Solving, Analytical Thinking, Team Collaboration

PROJECTS

Foody – Food Ordering System

Built a full-stack food ordering web application with user authentication, responsive UI, and secure payment integration.

ZapChat – Real-Time Chat Application

Developed a real-time chat application with private and group messaging, online/offline status, and typing indicators using Socket.IO.

Luxora – E-Commerce Platform

Created a scalable e-commerce platform featuring product management, shopping cart, and secure Stripe payment integration.

WORK EXPERIENCE

Sahil Infotech -MERN & Python Developer Intern   **July 2024 – June 2025**

Full Stack Developer Intern at Sahil Infotech, gaining hands-on experience in frontend, backend development, and Python fundamentals.

EDUCATION

Master Of Computer Application (in progress)   **2025-2027**

- Sarvajanik College of Engineering & Technology| Surat| **CGPA** : 8.75 / 10

Bachelor Of Computer Application (Complete)   **2022-2025**

- Sutex Bank College of Computer Applications & Science | Surat |CGPA : 8.52 / 10
